

aurôra changes everything

See why customers are leaving Loan Lease Accelerator behind for aurora's intelligent automation.

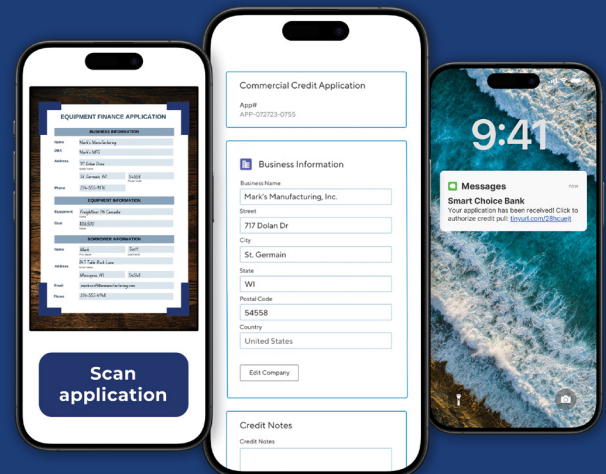

automate everything

- › **Touchless service automation** - Complete credit approval workflow, zero clicks.
- › **Fraud/Identity verification** - Plaid validates identities in seconds
- › **Credit summary** - Comprehensive credit overview of your borrower in a single screen
- › **Cash flow analysis** - Plaid and Ocrolus analyze financial health automatically
- › **Document authenticity** - Ocrolus validates every document
- › **Automated documents** - Generate, send, and e-sign documents instantly

aurôra intake

meet your borrowers where they are

- › **IntakeAI** - Our trained AI model instantly populates applications from a simple picture of a handwritten form
- › **IntakePortal** - Borrowers complete pre-populated applications, upload documents, and authorize credit pulls in one smooth experience
- › **IntakeAPI** - Build stronger relationships with vendors through direct integration with their systems
- › **Partner portal** - Empower dealers to sell more with self-service tools: instant quotes, document generation, status updates, stipulations and more - all without calling your team

fraud360

Let's face it, fraud isn't going away. Our comprehensive solution combines powerful tools from industry leaders like Plaid, Ekata, Middesk, Experian, and Ocrolus for a 360° view of your borrower. Biometric verification, document analysis, and behavioral risk checks help you spot problems before they cost you money.

aurora vs. LLA

What's the difference?	LLA	Aurora
Automation turn-key	X	✓
AppExchange compatibility	✓	✓
Fully extensible and configurable	✓	✓
Continuous enhancements	X	✓
Complete fraud solution	X	✓
Single page credit review	X	✓
Automated syndication	X	✓
Turn-key borrower and vendor portals	X	✓
Turn-key APIs and embedded solutions	X	✓

With our recent acquisition by Arthur Ventures, we've secured significant investment to accelerate aurora's development. This means more features, more integrations, and more support for you—without the wait.

backed by
Arthur Ventures

"Upgrading from our legacy LLA to aurora LOS was a natural next step for us. Our business was changing, and we needed our technology to keep up. This upgrade transformed our core operational processes and sets the stage for future growth."

— KIMBERLY FLOWERS,
SVP, LEASING OPERATIONS
CIVISTA LEASING & FINANCE

Proven migration. Lower risk. Less business disruption.

aurora

> portals > loan origination
> APIs > embedded finance

LLA has served your business well. Aurora builds on that foundation with new capabilities designed for today's challenges.
